

# I Do

We always assumed  
I'd be with you tomorrow  
A day full of joy  
And devoid of all sorrow

But life, without warning  
Had other ideas  
And though you feel sadness  
That I won't be here,

Just know I'll be with you  
Each step of the way  
In every moment,  
Each part of your day

Like when you get ready  
And put on your dress  
Whilst walking the aisle  
And greeting your guests

When you are eating  
And when you are dancing  
When you are crying  
And when you are laughing

And when you are smiling  
Whilst saying 'I do'  
Then know I'll be smiling  
Along with you too

But if it's too much  
And you just need a moment  
A time to be still  
And to be all alone then

Go where it's quiet  
And look to the sky  
Let yourself miss me  
And let yourself cry

And after a minute  
Then dry all your tears  
Return to your joy  
Now you know that I'm near

And though you can't see me  
Just know I see you  
And never forget  
That I love you  
I do
