

Find Me

Find me in the morning
And in the afternoon
Find me in the evening
Find me underneath the moon

See me in the sunrise
And when daylight turns to dark
See me in the twilight
See me underneath the stars

Hear me in the chorus
That is sung each day at dawn
Hear me in the wind and
Hear me underneath the storm

Feel me when you're all alone
Or in a busy crowd
Feel me in the rainfall
Feel me underneath the clouds

Yes, you can always see me
Though I'll look a little different
And you can always hear me
If you stop a while and listen

So close your eyes in moments
When you long to feel me near
Then place your hand upon your heart
And you will find me here
